

I've known Glenn Klausner for a number of years and conducted a series of interviews with him as well as having him on the air, live. I know some people are skeptics and/or believe the psychic phenomenon is some sort of scam. My experiences with Glenn, professional as well as personnel, show that is not the case. Glenn's ability to communicate with spirits is real, his talent unquestioned. I know for a fact that he's told me things that no one else knows and he did the same thing on the radio with listeners. He's incredibly articulate and intelligent. He's the real thing. If you doubt, get a reading yourself.

Dave Barry

Former radio news director, anchor and talk show host of WCKT- Cat Country, Ft. Myers, Florida

As a Professional Medium myself, I am very careful about endorsing other Psychics or Mediums. I will only recommend those that I know personally, have worked with, and know to have talent, real ability and above all professionalism and integrity in their work. I have known Glenn professionally for several years now, and know him to be a truly gifted Medium possessing all of these traits.

He has an energetic and creative spirit, and is also a very talented musician. I always look forward to working with Glenn as he brings fresh energy, a quick wit and tremendously creative spirit that is always fun, insightful and entertaining. Glenn has read for me and has been able to give me very accurate descriptions of friends and loved ones on this side and the spirit side of life, while delivering very detailed messages. If you are looking for a Medium, look no further. His vision is penetrating and his readings are imbued with his positive energy, optimism and trust that it's "all for the good".

Dear Glenn,

Anthony and I just wanted to extend our thanks to you for the wonderful experience that you gave to us last Saturday. Your communication with my father Peter and Anthony's grandmother Marion were truly unbelievable! Everything made sense and was quite accurate. We left your office feeling quite happy to know that our loved ones are still around and that "life" goes on.

We did get a good laugh when you told us that we'd come upon \$100.00 and that my father said to have dinner on him! No one, on either side of our family, gives money away too readily, so we laughed and said there's no way that would happen unless we found the money on the street! Of course on Monday when the mail came, we almost passed out.... my mother sent us a card for our anniversary, which was typical, but what wasn't was what was inside.....\$100.00!!!!!! I think we stared speechless at each other for quite awhile!! Dad got that \$100 to us and we did have dinner on him!!! Absolutely unbelievable!! We can't thank you enough. The accuracy of how you described Anthony as one of Marion's 7 remaining grandchildren, the way you described my son Jake and daughter Haley's personalities and the messages that were shared about our family and friends goes beyond words. We know that Marion and Pete were there on Saturday and we now know that they're around us all of the time!

Louise & Anthony P.

Hi Glenn,

For the past four years, you have done readings for me, especially when it had to do with my family dogs. Being able to communicate with them had helped me through my grieving process tremendously.

I haven't shared with you, in detail, the events that occurred after my readings, which validated what my loved ones have said. I wanted to share with you two most recent validations which occurred in the past four months:

1. When I had a reading with you and my parents, you mentioned that my uncle was holding a picture of

his family with 13 children. My dad was confused because he didn't have 12 siblings; therefore, he thought you were mistaken and wasn't totally convinced with your reading. Then, a few months ago, he had a conversation with his sister. As it turns out, there were two older siblings that my dad was unaware of (they passed away when they were very young). My dad was amazed because he remembered what you had said two years ago.

2. About 6 months ago, I had my fourth reading with you; this time, I wanted to learn more about my first unborn baby. Through you, I was able to contact her (i.e. my baby). You told me that in August, I would either conceive her or give birth to her. I'd like to let you know that I am pregnant (August 2009 is when the baby arrives) and feel absolutely blessed that she is coming back to me!

I want to thank you for everything. Have a happy holiday season.

Be well,
M.C.S.

"I had a reading with you on December 11th 2006 and I have since listened to the tape you sent. I have validated many things that you said of which even I did not have knowledge until validating them with the people that you picked up during the reading. You have a wonderful gift of connecting people with the other side. Your reading has begun to assist me with finding a better peace since my mom's death. You have a way of making one never want to hang up the phone. I laughed and cried but genuinely felt for that time that I was talking with my mom. I can't find the words to thank you enough but hope to connect with you again- Glenn there is a special place for you and you are truly gifted. May god bless and hold you near."

Katrina

My reading with Glenn on October 3rd, 2006 was all that I had hoped it would be. Before the reading I had called upon my grandmother to meet with me at my scheduled appointment and had written out questions that I wanted answers to. I did not take my questions with me but simply put them out there and asked for my highest good. I was not surprised when Glenn described my grandmother to me. Two other spiritual friends/relatives also joined her to help answer my questions. During my session with Glenn and my spiritual friends that had crossed over I heard so many indisputable validations that even my rational mind could no longer doubt the existence of life after death. It was an amazing experience as I discovered how very blessed we all are! Even now I continue to feel my grandmother's presence with me. My heart has remained opened to receive her and all who would lead me towards my highest good. I call upon them daily in my prayers. Thank you Glenn. You have opened a window to me that I hope to never close again.

Elizabeth

It's so hard to put my emotions into words. I have always been somewhat skeptical growing up in a strict Catholic family, you just don't try and contact the dead; but after my friends passing I couldn't help but feel the need to reach him. Because his death was so sudden, there was no time to say goodbye, so many unanswered questions. I'm not quite sure who guided me to him (Glenn's Mom or my friend or both since she is giving him dance lessons) but I am very fortunate to have found you! I know I've said this to you before but it is worth repeating. YOU ARE TRULY GIFTED! You have given me comfort and hope. A reading with you as others have expressed is very accurate and relaxed. I felt so comfortable with you. I am so confident of your talents that I have encouraged my friends family to contact you so they might have some closure as well.

Blessings to you Glenn
~Pam

Thank you Glenn. My reading last week was amazing. I have no doubt that it was my boyfriend who passed away 2 months ago, that came through in the reading. You were able to pinpoint details about my 3 kids that no one could know. It was a very deep reading and I want you to know that it brought me great peace. I am eternally grateful for the relationship that I had with him and now I know how he feels on the other side. God Bless you and your work.

~Sheila

Dear Glenn,

I had my very first mediumistic reading with you on 5/10/06. As I re-read the transcript of the audio tape you mailed me, of my reading, I was even more impressed with the accuracy with which you described so many, many things my son communicated with me in spirit, who passed in a car wreck Feb 26, 2006. The reading with you has given me such peace and healing & I just felt compelled to write you and thank you so much for your efforts.

The relationship with my 23 yr old son was not good, just as you described. He had pulled away from me and his father and we simply didn't know why, though I suspected depression and had begun testing on him to rule out physical conditions that might have contributed to his closed off personality. You let me know, through my son's words, that he was suffering depression, etc. That, along with knowing he is "of the light", his soul is "evolving", he was helped to cross over by my college friend who died of breast cancer about 5 yrs ago, as you told me (in your words - "a lady is there with him who helped him cross over, who died of cancer about 5 yrs ago).

Glenn, you may remember the references you made to a woman who "had an uncanny resemblance to Sally Jesse Raphael" & you said my son was telling you that she is someone who would come to my aid, giving me good advice, etc. At the time of the reading I didn't have a clue as to who you were referring to, but after our reading, on the very day of, my old, college room mate emailed me to give me advice on my grieving and provided me with the name of a medium she personally knew. Guess who she has an uncanny resemblance to? You guessed it. Sally! I am a portrait artist, so I pay close attention to facial features & I'm telling you, this friend looks an awful lot like Sally. If I could locate her photo I would send it to you. You even mentioned my "Sally" friend's name during the reading.

Anyway, thank you from the bottom of my 'grieving Mama heart' for the good you did me and all the others you read for. Though most won't get back with you to thank you or to explain things that 'hit them' after the reading, please know there are many who feel the same way I do, but just don't have the time to write.

Blessings,

Susie A.

Imagine...speaking with those whom we've let go...Imagine hearing from those you've missed...My experience was wonderful. As I walked up the stairs to meet with Glenn, I immediately knew it was him. He in return knew it was me coming to have a reading. At first I knew things were going to go well, my daughter had sent a weird sign earlier that very day, the song, "She's Somebody's Hero" played as I drove over. My brother-in-law Phillip was there, from the spirit world...Glenn described him well. Telling me he had a October-December connection. Phillip was born in October and died in December. He said he went to a school in either Minnesota or Missouri. Phil had indeed went to school and lived his entire life in Missouri-Glenn mentioned he put ketchup on everything he ate...Phil loved ketchup and indeed heaped it over everything. He mentioned Phil did not know he passed right away, later I asked my nephew how long his dad had been ill before his dad died, if was unexpected? Although Phil was recovering in a rest home, he was expected to recuperate and be home shortly. They had done bed checks a 7 pm and Phil was fine. At 7:30 Phillip had crossed over...to both his surprise and the staffs I guess!

My grandmother also came through, she mentioned buying a pink teddy for my young daughter, she described her as a feisty punchy little girl-although she isn't very tough, when my grandmother was living she nicked named her Punky Brooster-so this was another validation. My daughter waited for the longest time...i finally asked Glenn if he could reach a person I was desperate to contact, he asked my grandmother if this person wanted to be contacted, my grandmother informed Glenn he would have to go deeper to reach her...she was on a different spiritual plan. Rachel was finally there, my dream of telling her I loved her was coming true...I am probably going on...but Glenn knew things that only she and I knew.

Inky Paige Guerin

I just wanted to post my experience of my Reading with Glenn. My first reading was with George Anderson, world renowned, April 2005. My second reading was with Glenn in May 2006. It's interesting, because Glenn began the reading with exactly the same "information" as George did, with my son coming through along with my Mom. I am glad I had George's reading first as I had something to compare Glenn's to. Glenn is the real deal and what I find most refreshing is Glenn's reading had a much more personal tone to it. It was a bit softer and a bit more genuine. George's reading was very good; but because of his popularity, I was nervous and they have so many rules to abide. It felt a bit like the "Soup Nazi" from Seinfeld.

I felt very comforted by Glenn's words, and heard all the loving and soft things I had hoped to hear the first time from my Mom without the psychic using their own expressions. If too many expressions are that of the psychic and not of the departed it becomes confusing to the sitter. Thank you Glenn for being available to us to contact our departed loved ones. And thank you for being able to read at such a reasonable rate. May you, too, become deservedly world renowned while maintaining your wonderful genuineness. :) Blessings to you!

Suzanne

Glenn, how do I begin to thank you for giving me such a beautiful gift? You helped give me inner peace, hope and comfort. Getting a reading from you is one of the best decisions I have ever made. I am so grateful, thank you, thank you, thank you!!!

I had my reading with Glenn last night and was brought to tears, at times I was at a loss for words. My mother who passed away almost a year ago came thru. I was very skeptical and anxious about getting a reading but, 5 minutes into the reading I knew Glenn was telling me things that only my mother and I knew. I had chills and those chills have stayed with me all day today as I recall parts of the reading. I know my mom's spirit is alive and doing very well!!! I couldn't be happier about it! It has brought me so much comfort and I now know when I speak to my mom she hears and feels everything I say. I am so grateful to Glenn and for giving me peace of mind and making me aware that my mom is as much a part of me now (if not more so) than she ever was. God bless you Glenn!

Shelby

Just wanted to say a huge thank you for bringing my mother through...and my newly arrived father....and Henry's brother. And the "grumpy old man"....who left the reading, probably because Henry didn't

acknowledge him...but it was his father.

I think we were both suffering from psychic brain freeze that day. When my mother showed you a cake and said there would be a celebration...we never even thought of Henry's birthday coming up in the next few days...and the celebration....we had already planned a big party for his 70th!! Duh! My mother must have been having conniptions that we weren't getting it. No wonder his brother said the cake was connected to him!

We've probably listened to the tape a dozen times by now....each time another light bulb goes off when we realize what they were telling us through you. Everything was so on the money!! Everything you said made sense!

By the way, a funny thing....you told us something about my mother leaving \$2 bills for us and how you don't see them around much anymore. When we got home, Henry pulled out a wallet he hasn't used in years, and lo and behold....there are 10 \$2 bills sitting in there!

Also, you said my Mom kept reflecting on their actual wedding date. I meant to tell you before we left that the date was Aug. 16, 1945. Perhaps that date means something to you? Or may come to mean something to us in the future?

Well I hope your tape player is behaving itself, Glenn

Thanks again for relaying all the messages to us. You are so gifted!

Nancy and Henry

Reading on January 27, 2006

This was my 1st reading on November 22nd, 2005 & I was nervous about it. At first I was confused over so much information coming at me. In fact, I said very little and should have helped Glenn more with feedback, but I didn't since I was still trying to confirm for myself that this was real. Then, maybe midway through the reading it all started to come together as more & more info was passed. The joke about "who has my dresser now?" was the confirmation I was looking for that no one else except my oldest son (living) & I would know. After listening to the recorded tape of the reading Glenn sent, my current wife assisted me with identifying even more of the spirit participants along with our family dog that passed away just the day before. Glenn is legit and passed significant, loving & confirming information that he could not possibly know. I feel so blessed and happy that I took the step to call Glenn. God bless your own search for wisdom and serenity.

Tom

Dear Glenn, you truly ARE an angel.

I cannot express my deep gratitude for what you have given both me, my family, and Dad's friends. There is no way you could have known what you told me. Thank you.

In addition, the first time I contacted you, you did not "pretend" that you had spoken with my Dad. You apologized, and wished me all the best.

I appreciated your honesty. Now I would like to thank you for allowing Dad to contact me, and bring my heart such peace. This experience has made a believer out of more than one person. (Actually, even one named "Thomas!");) and has changed my life as well.

YOU ARE GENUINE, and I am blessed to have been directed your way. Thank you, again.

-Sara

Glenn is truly gifted. Glenn is a gift from God, an angel on earth. He connected me with my departed family and relayed info only I could validate. I know the info he relayed was coming from my loved ones by phrases he said, his description of them physically, the humor he used and most important of all the

love I felt. It's like a ray of sunshine beaming all around you. Even after we spoke the things that came to pass would remind me of our conversation. To KNOW your loved ones are with you is priceless. To all ye of little faith, have faith. My wish for Glenn is that he receive 100 times the peace, love and joy he has brought to me!!! Thank you God for putting people like Glenn in the world and thank you Glenn for just being!!!

Donna

Glenn's reading was stunning and very healing. It was done with great sensitivity and, at appropriate moments, a lot of humor.

If you are grieving and you have doubts about the continuing existence of those you love, please have a reading with Glenn. Before the loss of my beloved partner I had no strong believe in an afterlife, and being a rather analytical sort of person I approached the reading with Glenn with an open mind but a fair amount of skepticism. Glenn knew nothing about me except for my name and the fact that I live in London. After an hour of listening to detailed information, including my partner's private nickname for me and the precise name of the building where we met, it was impossible to doubt any longer. He is seriously gifted, very kind and I would recommend him to anyone.

Susan

My experience with Glenn was extraordinary! He touched on many things about my deceased husband that he could only know if my husbands spirit was contacting Glenn. I left exhilarated and happy.

Glenn is a true professional. Easy to talk with and extremely in tune with the spirit world. He asked us nothing, so there was no help given to him with regard to anything we were looking for. I felt the spirit of my husband right next to me as he mentally or spiritually communicated with Glenn. It gave me a sense of peace to know that my husband was happy and at peace. My husband was not the only spirit that Glenn communicated with. There were a couple of other family members, and he was right on the money with them, as well. I feel that Glenn gave me the ability to not only communicate with my husbands spirit, but ways to know he is hearing and helping any way he can.

I would recommend Glenn to anyone who was open minded with an open personality, and able to receive the information in a positive manner.

Diane M. Abraham

Dear Glenn,

In the time following your reading on Friday, November 19th, my time has been equally divided between trying to fully absorb the wealth of information you shared with me and dealing with all the thoughts and feelings that information has inspired.

What I can only describe as your youthful enthusiasm, good nature and openness was refreshing but also a first for me. While I did not necessarily expect a "somber" reading...neither did I expect a somewhat humorous one! In retrospect, I truly feel that you balanced the importance of the messages with the warmth, humanity and joy that they carried with them. In some mysterious way -- you were able to impart the true "essence" of those beloved souls to me so that their love and familiarity...was unmistakable.

As you were the first psychic medium who has ever performed a "channeling" reading for me, I must say

that it was vastly different from having a session with a spiritual medium who basically answers questions and imparts wisdom. When the messages being shared are coming from those closest to your own heart who have crossed over...the entire experience takes on a far more profound meaning. You are certainly not a "one time only" psychic medium. I will definitely be scheduling another session with you in the future!

In closing, thank you again, Glenn, for your investment of time, energy and effort and the "gift" of your upbeat personality, warmth and good humor. All of those elements combined to provide me with a funny, bittersweet and all together unforgettable experience.

With all love & peace,
Linda

I live in Australia and had a telephone reading with Glenn this morning hoping to contact my husband. I had said nothing of my circumstances to Glenn prior to the reading.

My husband apparently started to talk to Glenn before the reading. He was busily telling Glenn that he had a large table of food prepared and he was eating all through the reading. Anyone knowing my husband would be aware of the standing joke about his appetite. Glenn was able to tell me how David had died with complete accuracy and then gave me messages for myself and each of my children starting with my son. He then said there were another 3 children that David needed to speak to. Accurate, I have one son and three daughters. The second daughter was blown away when I spoke to her after the reading. Her message was that a US marine (Colonel) was watching over her. She said that she had a friend who had died in Iraq who was a Colonel in the US marines but she had never mentioned him to me. Glenn mentioned the older daughter who was 'chubbier' than the second daughter. Accurate, she is much larger. He said she had a son who although he was a bundle of laughs was also a 'terror train'. This is only too true. A recent holiday had us all chasing around looking for him most of the time. Glenn also mentioned David's love of horses. He was a groom to a UK Olympic champion when he was younger and had always wanted to own his own horse. Many other messages were for the future so I will have to post another note in a couple of months. I left the reading feeling I can now move on in my life knowing that David is happy and content. I can't thank Glenn enough for the gentle and sensitive way he dealt with the reading.

Denise Adams

Glenn,
Your reading had me so filled with laughter and joy and that's something I haven't felt in a long time. Although not knowing me, nor a thing about my situation, or who I might have been hoping to be in contact with, you came across with so many things I was able to validate I had no doubt in my mind you were in contact with my grandmother, brother-in-law George, and my husband, Eddy.....Your talents so impressed me, and I was immediately at ease with your manner and approach to my reading.....I was happy to know my husband had been met by my grandmother, happy he was with family, glad that he was making his peace with now being in the spirit world, and, although it may be a small thing, comforted that he still loved me.....Once again, thank you just doesn't seem enough. But those simple words come from my heart. Thank you. You've been blessed with a truly exceptional gift.

Gayle

My 19 year old son passed away on May 15th. I was given a series of signs, pointing the way to Fort Myers, Florida and I paid attention. One of the signs given to me was Glenn. I am from Louisiana.

The appointed day arrived and I was somewhat apprehensive and nervous. My belief and faith in God has always been strong, but understandably I felt that I needed proof. The hardest thing that a mother can do is relinquish control of the well being of their child to an unknown. It was agony for me.

Glenn and I sat down and he launched immediately in to his communication. I was somewhat disappointed at first, as I wanted my son to come through and there were others coming through first. And then it happened. Glenn paused for a moment and said "The one that you're looking for is not ready to come through yet." He then stated that he was embarrassed. My son had died from an accidental overdose, after he had assured me in a beautiful Mother's Day letter about a week and a half before he died, that he did not do drugs. I found him in his bedroom. And my son came through after that.

As a mother, I cannot tell you how happy I was, to talk to my son. I would torch my house if I thought it would get me just one more second on this earth with my son. Glenn did not know that I had a son, nor that he had overdosed and he correctly said that my son "went flying", not on an airplane or out of a car. Glenn said it was a very strange feeling. Of course it was.

When I read people saying that Glenn correctly nailed this or that, I smile. For it is only Glenn's gift that he communicate with our loved ones. They are actually nailing themselves. Glenn can just see and hear them. My son gave me some insight into his psyche and gave Glenn 100% insights in to his personality. Who he is. My son was very unique and brilliant and it would have been impossible to guess the things that were told.

My son assured me that he was not alone, which was so important to me, and that he was happy. I worried about his faith and whether God had him. All of my fears were allayed. He even joked about things that no one else could know about. Glenn knew his age and my son was able to give specific messages to my father (who is having a very hard time with this) and to a friend that I didn't know about until I got home. I looked on my son's cell phone and there was this friend. I called him and asked him if he was having a very hard time with my son's death and he said yes, that he had been worrying about whether Dustin went to heaven or hell. I assured him that Dustin was fine and had specifically wanted him to know that. I have never heard such relief in my life.

There were many, many things that were given to me in that reading and not one was wrong. Being a God centered person, it was important to me that I stay in that center with whomever I am around in life. Glenn is also a God centered person and bless his heart and soul, has given me the gift of a lifetime. I have been able to put my son's death in perspective.

I will contact Glenn again, after some time has passed. I only hope that Glenn does not get too big to help people, as some of the other gifted people have. We need him.

Sincerely,

Valerie

I am the person in February whose father's message was to look for signs from birds. Immediately after my reading I had an incident with a bird. Since then I had another incredible incident with a bird. It happened to my nephew and my son. They have been going through some trying and very sad times lately and the two of them were at my house alone together. My father was particularly close to these two and they were sitting at my house talking they opened the back door and in flew a cardinal. This cardinal flew around inside my house and the two guys were laughing and trying to help the bird out. Our dog Gus caught it and gently in his mouth carried it outside.

The bird flew off but left behind two beautiful red feathers. The guys said they both felt like there was a presence about that bird that made them happy and carefree for a few minutes. My dad always looked out for those two and he came back in their time of need. My daughter was kind of put out because she and her other brother did not get a feather. Well about a week later I was cleaning and found two more feathers. Also a friend came through in a reading about an accident and it has since been validated that his motorcycle accident was a mechanical failure. It is so incredible to me how events keep happening that validate everything Glenn said. I cannot wait to go back again for another reading. I just recently had a good friend pass away and I am anxious to see if he has some message for me. Thanks Glenn you are the greatest!!

Amy

My 10 year old son died suddenly last year and I was depressed to the point of considering suicide. Then I had a reading from Glenn. Glenn's reading proved to me that my son still lives on in spirit beyond the shadow of a doubt. His reading gave me detail after detail that only could have come from my departed son. Glenn described my son and knew his name, as well as the name and description of the grandfather who helped him cross over. He described our deceased dog and told me my son was met by this dog when he passed. He also told me that the cat knew he had passed. The last time I saw my son alive he was holding the cat. Glenn also gave me the name of my son's father, brother, and stepmother, and the names of several other relatives of mine who have crossed over. Glenn also told me that my son had a little girlfriend in his 4th grade class I didn't know about, and gave me the name of Kelsey. I later was to learn that my son did indeed have a girlfriend in his class, and her name was Chelsey.

Glenn told me during our reading that my son was describing a woman that was also with him that would have been a great-aunt figure to him from his mother's side. This woman had severe neck and back problems and wore orthopedic shoes. Glenn gave me the name of Lorraine or Loretta. I could not place this person and was disappointed. A few days later, I saw my ex-husband's wife and asked her if she ever had an aunt that had these problems that had passed. She said, "Sure. My Aunt Lorraine." This woman has passed many years before she ever met my ex-husband.

I could go on and on with more details and validations. There are not enough good things I can say about Glenn Klausner and his wonderful talents. He gave me the best gift that anyone has ever given me: the proof that my beloved son still lives on in spirit, and that love endures and transcends the life we live upon this plane. Since his reading, I have been able to go on with my life with the knowledge that I

Alison Cambisios

Glenn, it was an absolute delight to speak with you. I sensed your wonderful spirit and desire to help others just from looking at your photo on your website.

I am so glad you were able to speak with my grandfather and my recently departed cat, Miss Morgan. You were able to bring their spirit through with the same enthusiasm they had while here with us. My grandfather introducing himself to you while holding a birthday cake for me still brings tears of joy to my eyes. What a wonderful birthday present from a very sweet man.

I don't know you other than talking to you over the phone during my reading, but I wish I did. You exude the kind of positive energy that I love to be around. Thank you for a very informative reading and for being so generous with your time. Everything made sense and was right on. You're a very sweet guy. I hope to talk to you again.

Peaceful blessings, Laura

This in person visit with Glenn was for my mother and I joined her. Glenn was telling us about my father who passed that he was in a Zoo. He saw Police like saluting. The number 15 was flashing. My mother and I retraced our memory and it was May 15th in the mid 1960's that the whole family spent the day at Central Park Zoo. It was one of the few days we all had together and it was Armed Forces day and we went to a parade where cadets were marching. The salute was that salute. My father died young so I know that was a happy day that he shared with all of us. Glenn touched on all points of my mother's life and events happening. My mother wasn't even cooperative but the spirits came through loud, strong and loving with images that will help us to closure of so many things. Glenn is on target, it just takes an open mind, a willingness to see, listen and search for the truth and love the spirits hand us so readily. thank you Glenn Stay close in heart and spirit.

Gloria The Daughter of the Zoo Keeper and Twinkie bearer!

For the past four years I have been on a search for proof that my deceased father still exists in the spirit world. On my journey I have read many incredible stories about communicating with spirits. Nothing compares to what I experienced in my reading with Glenn. I drove 2 and a half hours for my reading and on the way home the old skeptical wheels were spinning. Glenn told me that my father said that if I saw a bird in a strange situation that it would be him. That same night my dog was barking and I stepped outside to see at what. Perched in my laundry room on a crate was the most beautiful red male cardinal. I have never seen a cardinal out at night and this was my fathers favorite bird to sit and watch in his yard. This cardinal was flying in and out of my laundry room to perch on a grapevine wreath that my father had made me. I knew the bird was not trapped because it was flying in and out. I waited until my three kids came home to show them. We all were filled with joy. This was my father. It was our message to us. Don't doubt. Just know. So many wonderful things came through in my reading. Many things that I was unsure about have since been validated after talking to relatives. Thank you so much Glenn. I can go on. My search is complete. God Bless You

Amy

Glenn has a gift from God, and uses it to help others. Our reading was exhilarating, and helped give closure for me after 20 years following my father's death, and brothers suicide 2 years ago. It changed my life. Validations were abundant. My wife and I went, and had family from both sides come to us. Glenn's compassion and demeanor were refreshing. I cannot say enough positive things. God blessed me by bringing our paths together. Thanks Glenn, and God bless you!!

Kevin F.

Glenn was able to pick up my brother even before the appointment began. He knew his name and could even name relatives that have passed over. It was no surprise that he was greeted by his grandfather (who he named accurately: RAY) because even though they never met, our mother has always said that her dad would have been a fantastic role model and supporter of my brother, as they were so much alike. Also, I am still amazed at when you said Mike said "I don't like Brian". That blew me away. I have been seeing a guy named Brian for several months (started after Mike passed) and I know that we are not meant to be...Brian doesn't want to have children and I do, and I know it will be with someone else. I look forward to naming my first-born son after my brother, whenever that will be. You also knew that Melanie (Mike's oldest daughter) likes to sing. You knew that Amy (middle child) has trouble with her left leg/knee. Is there anything you don't know? Thank you Glenn for opening my awareness and my heart. I love and miss my big brother very much and its wonderful to know he is still with me, and will be forever. Please give him a big strong hug from me.

Michelle P.

Glenn, I just wanted to leave you a little message to tell you how thankful I am for everything you've done to help our family!!! You have given us all some hope and happiness knowing Uncle George and mom are in a wonderful place. You have given me a true gift of peace since I have done readings with you. Please know that we consider you a very special friend!!! I always enjoy doing a reading with you, you're lots of fun and very special. Thanks for everything and take care!!!!

Love, Annie Morell

GLENN HAS BEEN A GUEST AT MY HAIR SALON IN NAPLES AT LEAST 4 TIMES TO DO READINGS. I'VE HAD GROUPS COME TO MY SALON AND EVERY SESSION WAS AMAZING TO LISTEN TO GLENN CONNECT PEOPLE TO THEIR LOVED ONES! EVERYONE LEFT WITH SOME SORT OF MESSAGE...THERE WERE TEARS...THERE WERE LAUGHS AND FOR THE MOST PART EVERYONE LEFT WITH SMILES ON THEIR FACES! HE WAS GREAT!

ELEANOR BALDWIN

Completely incredible! Totally accurate in terms of dates, names, etc. Facial expressions really blew me away, as did certain references. Glenn, your reading was amazing and very comforting as well. Certain references were so right on the money - you asked me, "That thing around your neck - Why aren't you wearing that thing around your neck?...You always wear that." Well I had deliberately NOT worn the necklace and "good luck charm" the day I had my reading. Your zeroing in on that just affirmed your abilities for me.

Since the reading several things have occurred. You focused on "Wind Beneath My Wings", a song I had always liked the words of but didn't particularly like the Bette Midler version. You told me...perhaps you'll hear it and it will be a confirmation for you. Not only did I hear it, but in a context that let me know that it was indeed a message, not a coincidence. Also, you brought my friend Tim Kelly, guitarist from Slaughter through. He had lots of messages for his sister that I was so happy to convey. Quite a gift you have there. Can't wait to have the opportunity to see you again. Peace of mind is a beautiful thing.

Gina G.

Glenn,
You are amazing. What can I say? Might I first congratulate you on being the first medium to come up with my father's first name. (But, then again, my father made it easy for you by telling you a "royal name" then listing Stanley as a royal name! Ha, ha, ha) I'm so glad you repeated word for word what he said...it's makes it even more "spine chilling". You didn't know it but his quotes that you repeated word for word are exactly the quotes that he would say on this side. I really enjoyed the way you quoted him and quoted yourself in your responses to him.

Your movements and expressions were his as well. When you asked him the value of the missing gun, he said "Ehhh" and moved his hand as if to say 'A little, but not much'.... that answer was EXACTLY his answer on this side.

And when you asked him if the engineer was the Ulysses Grant guy...my father said "Read up on U.

Grant..." That is 150% EXACTLY how he would respond while on this side...he would respond by telling us to "read up on...." It shocked me to hear these words coming out of your mouth. I didn't want to leave.....

Remember my brother, the pilot? (My father told you his son was the pilot) and you said my father's message was to let him know not to be complacent and too comfortable, etc....my father and I were having that EXACT conversation one week prior to his crossing over. What you didn't know was that my brother is a printer by trade. He has his pilots license for smaller planes and at one point dreamed of getting a full time job piloting but because he's so complacent, he started printing when he was 16 and is now 40 and is still printing!! (Even though my father paid for a 4 year education for him!)....so right before my father crossed over he said he wishes my brother would do more...not just print. It blew me away when you so specifically repeated these thoughts. Shocking. just shocking.

Julia

My phone reading with Glenn was rich with validations including some of the names of my family who have passed as well as some who are still here. He connected with my cousin, my father, my brother-in-law, my aunt and my brother. It was especially sweet to hear my dad and his sister, who just recently passed, still joking and bantering the way I remember so many years ago. It was amazing to hear that my family was connected with a little boy who was a messenger himself. I have since validated some of the things Glenn told me about this little boy and look forward to being enlightened.

Vikki Duncan

My interest in mediumship significantly increased after several unique experiences following my dad's death in May 2001. Since then, I have consulted with several mediums to learn more about the process and to observe different levels of ability. Glenn Klausner is, without a doubt, the most REMARKABLE medium I have had the pleasure to meet. The messages he relays are extremely specific, detailed and accurate. None of the vagueness and generalities I have seen with many others. Glenn's skills are fine tuned and he expresses himself with clarity, compassion and just the right amount of humor.

One (of many) areas that he covers with incredible precision, is his ability with names. Unlike many mediums who are only able to convey such things as "it begins with a 'T'", or "it has a long 'a' sound", Glenn can often provide FULL correct names. A few examples from my readings include Paul, John, Carol, Brian (whom he correctly referred to as "the spirit's son"), Michelle, Jennifer, Victoria (whom he correctly said goes by "Vickie"), Buddy (whom he correctly said "has a different legal name"), and Etta (which he spelled for us). When my mom and I had our first reading with Glenn, shortly after my dad passed, we both truly felt a sense of connection with my dad. It was amazing, inspirational and immensely healing. We know we are only two of many people who sincerely appreciate the wonderful and beautiful gift that Glenn shares.

In Love and Light,
Kim T.
Orlando, FL

We were amongst some mutual acquaintances one day and he was sharing a message he was receiving. He finished his message to the one person and I got up to walk away, saying "I guess there isn't anyone on the other side that wants to talk to me..." Suddenly, Glenn says, "Wait, wait...who's Tom?" I froze in my tracks. Tom had recently passed away from lung cancer. Glenn went on to say that he was a heavy

smoker (very true), and he was in a boat over a large body of water (Tom's ashes were taken out by boat to spread over the Gulf of Mexico). Then the kicker, that day I was having a dilemma over what vegetables to start feeding my infant son. I did not know where to begin and did not want to buy a variety of jar food and waste it if he would not eat it. I had planned to go to the store literally that evening. Glenn said, "Ok, this may sound strange, but Tom wants me to tell you green beans." Ok, I get goose bumps every time I tell this. To this day, my son will eat green beans: cold, hot, mashed, whole, for breakfast, lunch or dinner; it doesn't matter, it's his favorite. Thank you Glenn,...and Tom, God Bless.

Carole Andersen

Hi Glenn,

Okay, get this:

I was able to validate with my Mom almost EVERYTHING about the older gentlemen that came through!

The main guy that said he wanted to thank me for taking care of my Mom was my Mom's Uncle Johnny (you know, "common like John")! He was HUGE my Mom said, obese so he would definitely NOT jog in his lifetime! My MOM was his favorite out of the 12 kids he adored her and she, him! His brother was UNCLE TONY!!! Uncle Tony came to my wedding, (first one) and he died in December of 2000 so my daughter WAS still in a crib only just barely 2yrs. old and she sleeps NOW with a stuffed dog in her bed...I knew that...but I thought you meant when she was in a crib...which I can't remember...but actually today and usually she either sleeps with her favorite bear or stuffed dog. The other guy that drove the black Cadillac like and/or went to NY/NJ and the jazz club stuff was another Uncle. Uncle Ralph and he was a rough and tough..no bs kinda guy...no one can remember the tabby cat since these guys are all Italian and cats to them were for eating! One of those guys had a tattoo. My Mom and her parents cannot remember right now. Uncle Johnny used to do this trick with pulling quarters out of his ear...and to this day, my Grandparents still play the same penguin game that those guys used to play!

2 things: The dolphin reference...my husband and I just passed up the opportunity to buy a painting of dolphins 2 nights ago AND...we were just talking about planning a vacation out west and buying a laptop pc...to take! Also, my Son has one football jersey...he loves the feel of it...and when he's not wearing that he wears usually long sleeve jersey type shirts!

Glenn...my Mom said that I had a lift for the first time in forever in my voice today! Thank You.

Angela

Dear Glenn,

I wanted you to know what a wonderful gift you have and the kindness in your voice and thoughts have made meeting you a blessing. You have brought my Mom into my life in a way that has helped me cope with her death, you have showed me that she is in fact still with me when I think she is not. You have filled the emptiness I have with reassurance that she is and will always be by my side. You really are the real McCoy. I look forward to talking to you the next time I need my Mom fix.

Sincerely,

Liz Pielin

Thank you for the excellent reading, Glenn. The one I was hoping to contact did not come though, but from the one that did (an ex-husband) I received confirmation that I am on the right spiritual path (in life he had been a skeptic, even a nonbeliever). He also asked me to apologize to our daughter for her "broken" heart because of a hurtful relationship with him and that he wanted to help her from the other side. I am most grateful for that information as she accepted and by healing she will be able to live a happier life.

Thanks for the information that there are EIGHT dogs waiting for me - that information lifted my heart as I dearly loved all my animals.

Thank you!

Dot Harrison

Glenn,

I can not thank you enough for my reading today. I was hoping to hear from my father and I did!! He pretty much took over the whole reading. I can not tell you the inner peace I have today from speaking to you and my father. I am so grateful for finding you.

I can't say enough about Glenn's abilities. He said things and knew things that others couldn't have known. I made so many validations immediately. My experience with you was amazing. I can't wait to make another appointment with you. I have already told all my family and friends and I hope they are able to connect with you and feel the inner peace I do.

God Bless you and thank you so much!!!

Lydia Bruno

I had my reading with Glenn on Feb. 21st. It was my first experience of this kind. Glenn helped me put a lot of feelings and thoughts about my husband's death in perspective and I felt an inner peace after the reading. I was very amazed of how accurate Glenn was with details about my husband and my mother who also was there. I look forward to my next reading. Thanks again Glenn. God Bless you for helping me get through my grief and get on with my life.

Mary Lou Robinson

Dear Glenn,

Today was my first reading experience with a spiritual medium! I perused through many profiles of various "gifted" mediums, but did not feel right with any of them. I wanted to reiterate the fact that...I just knew you would be the one to make a connection with our family! Thank you!!

You described so many details that were later validated by other family members. Being only 2 when my father died, so much of our physical connection was lost, but I know (now) that our spiritual connection will always live on. We have a recording of his music, which has inspired me to record my music for "archival" reasons.

Since my father's death (in 1964), my mother has been through one divorce (Lee) and two husbands (Mark & Jim). They are all deceased and came through today. I knew Mark was with me during my masters program...helping me write all of those papers! (Mark died at work from a heart attack in 1987). Jim came through with the "Maalox" connection, being that was the last thing he drank before he died in

May, 2000.

My mother is now going through chemo treatments (two so far) for breast cancer and it is comforting to know that our father was/is with her during this difficult time.

The strong female energy you were feeling and describing, was the same one that I have been feeling for years (in that house). Her name is/was Mildred. She died in the backyard (from a brain aneurysm) while washing the dog. Grandpa (the one with the teeth issue and hair in his ears) was quite a character! He came through as well. They all lived in that house during the course of many years. Anyway, I just wanted you to know that I appreciate your gift and it would be great to experience another reading with you (out of that family house!) You are such a sweet and special soul...

Sincerely, Judy

Dear Glenn,

I just wanted to write to you and thank you so very much for the hour my father and I spent with you! It was amazing, and went by too quickly as I had many more things to ask, but was overwhelmed at the time and found it hard to speak! I was so happy to hear from my mom and my friend, Rodney, as well as the others who came through, but most of all I was so happy that my grandfather Albert came through to tell my Dad he loves him, as in life he had never done so, and it was always a painful issue through my Dad's life, and when we got to the car and we were leaving, my Dad said he had not felt that great in years!!! Since he will be celebrating his 80th birthday soon, that means so much to me!

Also, knowing that my mom is watching out for him, and will be there for him when his time comes made him so very happy, as he has never stopped loving her with all his heart all of these thirty years since she has been gone! When you were able to tell us all the names of the people, well that was something else, but some of the details really blew us away, such as my mom picking out horse races for my dad, as I was always around the race horses as a child and mom's dad once owned a thoroughbred race horse!

God bless you and yours now and always, and I will be telling everyone I know just how wonderful you are! Once again thank you so very much and I will be looking forward to returning for another reading soon, as I would love to ask some questions this time of my mom, and others as well! I think I will be able to the next time, I will be more prepared! Anyway, I will be in touch soon!
MUCH LOVE AND THANKS ALWAYS,

KAT GRAY AND BILL

Glenn...each time you have "read" for me, it has been very correct, with many details that no one else could have known other than my "loved ones" who have passed on. I appreciate your gift very much. I compare you to John Edward, because I think you are just as wonderful as he is, in terms of your psychic ability, your "mediumship" and your accessibility as well. You have helped so many people and continue to do so. Thanks for all your help, Mystic Mary Sunshine

Hi Glenn, glad to check out your new website which is great. Wanted to tell you how grateful I am to you for all the help you have provided to my friends who lost loved ones on 9/11. You have been so comforting to them and have helped them in so many ways. You have also provided me with some very helpful "messages" over the past few years. We are fortunate to be able to avail ourselves to your great gift. Thank you.
Joan Shipman

Dear Glenn,

Words cannot express what you have done for me and my mother. Our lives have changed forever, and it's all because of you. I must admit that I was a little skeptical about a phone reading, but at the same time I very much needed it. You were right on the money with everything you told us. When you told me that there was a picture of my Dad hanging on the wall beside where I was sitting that had been edited in some way, I could have fell off the couch. I only have one photograph in my living room, and it's of my Dad. I had it enlarged after he died. The picture was hanging on the wall beside where I was sitting just like you said. That particular picture means a lot to me. When I am upset, I sit and stare at it. When you kept stressing that my Dad was saying that he still gives us hugs, I couldn't believe it.

Since he has passed away, I have had dreams of seeing him and getting a hug from him. When I would awake, i would tell my family and friends how wonderful it was to get a hug from my Dad. It would remind me how great it felt, and I could "feel his hugs" all day long. You said that my Dad was telling you that he had been gone exactly 3 yrs. to the day of our reading. He had actually been gone 3 yrs. and 1 mo. exactly. That just fitted Dad perfect, because he never was good at remembering specific dates. You said that he was saying that he had a massive heart attack, and he would have problems with Charlie Horses. Wow! You said he was saying for me not to get onto him for eating all the cake. We would always joke about food, and I would tell him not to eat all the cake. You said that he was showing you a sandwich with a toothpick in it. My mother would make him a sandwich every morning before he would go to work. She would wrap the sandwich up and put a toothpick in it, so he could eat it on his way to work, and then pick his teeth. Thanks for everything.

Becky Whitaker

Dear Glenn, Words cannot convey the impact you have had on my life. You interpreted my father for my sister and I on May 19th. Since that meeting, I have felt an inner peace that I have never felt before - never knew existed. Not only am I at peace about my father's death, I am at peace in my daily life. Regarding my father, questions have been answered surrounding his death and I am actually elated that he is genuinely happy for the first time.

For me, I have discovered that I am truly happy, as well, for the first time in my life. When I wake in the morning, that instant feeling of stress and dread about what the day might bring, is no longer present. I find myself smiling - a lot. I look at people with a new found empathy and concern that I have never felt before. I have now felt the difference between life with and without faith. I no longer suffer the loss of my father, for now I know that it is true - that I WILL see my father again some day. And when I remember him now, the memories are no longer painful. I smile when I think of him and am so thankful that he chose you to communicate through. I feel tremendous gratitude to you and I know that I will see you again. Thank you for bringing me peace, faith and happiness.

Michelle H.

Glenn, my husband and I would like to thank you for allowing us to know that our "princess" Misty Dawn is okay and in heaven. My husband was very skeptical about even calling but is so convinced that you contacted our daughter that you have helped ease our pain. In the first 5 minutes of our phone conversation he knew that you had contacted Misty. Words could never thank you enough. God Bless You. And we hope other parents that are grieving will contact you. Thanks again.

Anda and Richard
In Loving Memory of Misty Dawn
September 19, 2000

My 13 year old son passed in May 2000. It was a great shock and terribly painful for my husband and myself. I have always been a believer in the here after, but when it became my "angel baby" who had to cross over before myself, I was lost and desperately searching for true validation; both of his being okay with what had happened, and that he was happy. I felt a tremendous guilt for not being able to save him as I had always told him that everything would be okay. I needed to hear from him. Through contact, (via the KRQ radio station phone reading on October 30, 2000) you gave me absolute evidence that you had truly connected with my son. Of this I have no doubt. I have to admit that I was in a pretty happy mood for several days thereafter for the peace I received from your reading. Thank-You. Now, I only wish I had taped the reading so that I could share it with others, but mostly with my family who grieves still as much as I do. Still buggin KRQ for an audio tape copy (I hope, I hope, I hope, they come through for me!)

God Bless You Glenn.

Teri

Hi Glenn,

I received the audio tape from the phone reading. Thank you. If you remember my brother came through & he was eating a snickers or milky way bar. I had told you that I didn't know if he liked the chocolate candy bars since I had not seen him in 6 years & had moved back to my hometown in his final month. When I was driving my 16 yr old nephew (his son) to work after the reading he in fact told me that his Dad loved almond joys & mounds bars & that when someone in the family was going to the grocery store my brother requested someone bring him back a candy bar. I didn't ever notice my daughter in-law of less than a year having a skin problem but everyone in the family says she did (blemishes) just as you had said. And the young man who came thru at first in the reading who died in the motorcycle accident who is my friend's son , well thought you'd like this to confirm how you said that his girlfriend had his name tattooed on her back, well guess what- The father , my friend validated it.

Again thank you so much for connecting with my loved ones.

Lee A.

Dear Glenn,

I wanted to thank you again for putting me in touch with my "Angels"(My 2 Sons) whom you have communicated with once before. I wonder if spirits ever thank you as well for helping them? You have a wonderful gift & your kindness & love really transpires through your readings. How can I thank you enough? I learned that being a Medium at the service of God is an incredible act of love & selflessness because it requires to give so much of yourself which many people do not realize with yet sometimes no recognition of the service provided.

This reading taught me another big lesson. The boys gave some messages which I thought at first "Why this message"? Later on I understood & I begged them for forgiveness for my selfish thoughts. For instance, you had relayed the message regarding a small dog & not feeding him cheese. Since I don't have a dog, I could not understand this message which I thought was "trivial"... but later on I remembered- My next door neighbor always comes to see me with her inseparable small dog who inevitably "begs" for food & the only thing I can find to give him is cheese! So besides telling me not to feed the dog cheese because it's bad for him, they are also showing me that they are very much aware of what's going on in my life!

Anyway, thank you again for your time and caring. Until our paths cross again, I wish you all the very best.

Love,
Veronica

Dated- Dec 5th 1999,

Hi Glenn,

A few weeks ago when John & I came to see you, you had told us about a girl that we knew who would be in a bad car wreck. You said her name was Denise and that she would be in a red car. We told you that we only knew of two girls by that name one who works at a company we know & the other is one who lives across the street from us. You gave us other signs to warn the girl but we knew the girl across the street did not have a red car. I came home today at 6:30pm , & I was getting stuff out of my van when Bob (Denise's Husband) came over and told me that Denise had been in a bad wreck up in Bradenton this weekend. She had broken her neck, arms, feet, etc. I was shocked. I came in & told John. I sat down & it hit me on what you had told us in the reading, so I called Bob & asked him what color was the vehicle she was in & he told me it was a red jeep. I wish I could've warned her. But all in all she is o.k. & will survive.

Thank you again, and for trying to save a total stranger to you from harm.

God Bless You.
Sally

Thank you, my guides, spirits and loved ones that have passed to the other side for my special reading yesterday 9/11/00. As usual, I am sent to you on special days---I needed confirmation of Chris's passing and you verified yesterday, his birthday. Elvis's visit was the icing on the cake!!!! Thank you again Glenn for your friendship and guidance. With love and light, Lilli Ritchie Bearer.

Glenn, I had a reading with you on Mon, May 22nd 2000. In my reading you reached 2 of my relativesone being my Aunt Jo who was killed as you had said. You told me that I will get a sign that it was her communicating to you. Well when I left I was driving & a Van cut right in front of me & to my surprise the license plate was customized made & it said "AUNTJO". I thought I'd share the validation with you. Thanks again. Laura

Glenn,

I just wanted to say thank you! I was kind of hesitant at first, but I was amazed when you started describing my husband's dad & my mom. I really don't mean to sound like I didn't believe in your talent but you hear all kinds of things on the news about psychics and I just have to tell you, you really made my day. You have a wonderful gift & I have told many people about you. There are many people who need to hear from you. I figured out who the lady with the bonnet was, it was my grandma. She always wore a babushka which is something like a bonnet. I also heard the song that would you said would be my clue about moving to Arizona. The song was by Paul McCartney & in it he sings Tucson, Arizona, California & going to where your heart is & where you belong. As soon as I heard it, I knew this is what you had been speaking of the night before in my reading. Thank you so much for your words of support, I feel like you have become my friend. Thank you for giving me a chance to hear from my loved ones. It's nice to know my mom still has a great sense of humor & is probably driving everyone crazy in heaven. I wish you all the success in the opening of your store. No matter how successful you become please never stop doing readings for people one on one. You truly have a wonderful gift & people really need you.

God bless & thank you again.

Dana

Glenn, I think you are a wonderful, insightful man, who is doing the world a great service. My first reading from you knocked me on my rear! :-) My second was an emergency and you were wonderful, tender and caring while answering my questions and you have helped my hubby and I stay together. So thank you for being you!

Laura

Hi Glenn,

Thanks once again for your very accurate reading. My relatives came through, just as I had hoped. You mentioned some things which were unfamiliar to me at the time. However, since the reading I was able to verify these facts with my other relatives. Remarkable! You were very comforting and helpful. I enjoyed speaking with you and hope to do so again. Thank you so much for taking the time and God Bless you.

Patti White

Dear Glenn, I just want to say thank you again for the reading you did for me and my mother. I just wanted to let you know how many of the things that you got from my dad were right on the money. It was nice to have some kind of contact with him. I would also like to thank you for bringing the message about checking my brakes from my dad. As it turns out, I only had one brake working and the rotors of my car were rusted almost completely through. I had no idea that anything was wrong with the car and I could have died if I continued driving it in that condition. You have an amazing gift. I know I will definitely have another reading with you in the future.

Kyra Dawson

One of the most profound things I encountered when I got a reading from Glenn...was the genuine feeling I had, that I was talking to a long lost friend. Even though I had never spoken to him before. Within 5 minutes into the reading, he kind of laughed and said "I can't believe I'm actually doing a reading for another psychic". No one else I've ever gotten a reading from has picked that up about me. Unfortunately, for that very reason, I'm a difficult person for others to give a reading to. Not necessarily because they aren't gifted, but because the spirits don't cooperate very well when I'm out trying to get some answers the easy way, via someone else.

The one thing I got immediate confirmation on, was that Glenn had told me to be supportive of whatever my son's decisions were about his life even when I didn't like the choices he made. My son had decided to go into the military and I really had mixed emotions about that. But the next day my son told me what area of the military he would be in and I really, really didn't like the thought of my son going into that particular area. Because of what Glenn talked to me about during the reading concerning my son...I was able to bite my tongue about my own opinions and tell my son what a fine young man I thought he was

and how proud of him I am. When it happened, I knew immediately that's why Glenn had touched on that during the reading. Thanks Glenn.

Linda Nation

After meeting with Glenn on 12/15/99, I never expected to feel the way I did when it was all over. I have had numerous readings in the past but have never experienced anything like I did when I had my reading with Glenn. He brought so much joy and happiness to my life and closure to many issues. The tears that I was shedding during the reading were tears of joy and happiness! Glenn, THANK YOU, again! Your gift is a blessed one! Keep up the good work! I shall spread the word and will definitely be back to visit!

Molly
